

The Munchkin 1 Message

Week 1 June 18 - June 22

Our Wonderful Week

Dear Moana Munchkin (M1) Families,

It has been an incredible first week at camp. We have had a blast trying new things and getting to know new people. M1 has had a fun start to swimming, and we have been able to enjoy time on the basketball court practicing our dribbling. We have also played “getting to know you” and team building games as a group. All of these were fun, but the favorite this week had to be nature and science. In nature, we discovered what poison ivy looks like and how to avoid it. In science, we learned how to make volcanos using baking soda, food dye, and vinegar. The Munchkins had an amazing first week, and we are excited for more!

Warmly,

Ben, Jessa, Patrick, and Ashley

PLEASE NOTE: PICTURE DAY IS TUESDAY, JUNE 26TH. PLEASE WEAR YOUR WHITE TAMARAK SHIRT.

HIGHLIGHTS OF OUR WEEK

- We learned about volcanos in Science and Poison Ivy in Nature.
- We got to know each other and played team building games to work as a group.
- Swimming was fun as we got an amazing start to our swimming lessons.

REMINDERS

- Next week is Jungle Week!
- Swimsuits go home Fridays to be washed and returned each Monday.
- Thanks for a great week!
