

The Astro Post

Week 2 June 25 - June 29

Our Wonderful Week

What an awesome week it has been to be an A-boy. The Astros have buzzed about camp all week and participated in some really fun activities. Over at Nature, the campers explored the camp grounds on a nature walk and learned about different types of rocks. At Challenge, the Astros put on their thinking caps and worked as a team to accomplish their weekly mission. Meanwhile, over at Archery, the Astros have been sharpening their skills and showcasing their top marksmanship skills.

This week at Arts and Crafts, the Astros tested out their aerospace engineering skills as they created a variety of paper airplanes. The boys created a grand fleet of high risers and sidewinders, with a few unfortunate planes losing their flight path and landing up on the roof. (Sorry Dave)

On Thursday, the Astros enjoyed the warm weather and went on an outing to the Vernon Hills Water Park. It was a great day to splash around in the pool and race down the water slides. The Astros also enjoyed lying back and kicking their feet up as they floated around trying to doge the water buckets and sprays around the 700 foot lazy river. As always, the day was capped off with a delicious Tamarak Popsicle!

PLEASE NOTE: Friday, July 6th is Tamarak Idol. Camp will be closed to visitors until 11:30 am.

HIGHLIGHTS OF OUR WEEK

Kid Fit
Scooter Hockey
9 Square
Athletic Outing
Knock Hockey
